### American Recovery Center

American Recovery Center (ARC) is a free-standing Chemical Dependency Recovery Hospital (CDRH) licensed and certified by the state of California. ARC provides a comprehensive system of care, including detoxification from alcohol and other drugs, residential and outpatient treatment.

Our treatment is based on the disease concept of chemical dependency. Our goals are for individuals to return to society as productive members, maintain their abstinence, and actively participate in recovery support systems.

Special services are available for CalWORKS participants, Drug Court, persons with HIV/AIDS, and persons with co-occurring mental health disorders.

### Fees

Most insurance plans are accepted. No one is refused access to treatment due to lack of funds.

We are partially funded by the Los Angeles County Department of Health Services, the Alcohol and Drug Program Administration, the Office of AIDS Programs and Policy and the Department of Public Social Services.

### Admission Criteria

We accept men and women, 18 years of age and older for detox, residential, and outpatient services. Residential is available for men and women with dependent children up to age 10. Individuals must be capable of self care.

Criteria for acceptance and participation into American Recovery Center and all BHS programs are the same for everyone without regard to race, color, national origin, age, sex, sexual orientation, gender identity or handicap.

### Services

- Inpatient medical detoxification
- Short and long term residential treatment
- HIV/AIDS education
- Free confidential assessments
- Group and individual counseling
- Educational groups
- Aftercare and alumni
- Urinalysis/drug screen testing
- Intensive outpatient
